

In 2011, we charter and execute a load out for 2 X slug catchers. 1 unit 24.5M X 8M X 6M 470ton another unit 21M X 8M X 6.2M 310ton.

We mobilized a 250ft ballastable barge from Singapore to Kuantan private berth for performance Roll-Roll on deck, hot-work sea-fastening, securing and sailing to Tangga Barat high sea for floating crane discharge to offshore platform.

Winstar Group company partnered our Malaysia heavy-lift operators with SPMTs/ballast equipment/support equipment to conduct this project.

End-user was satisfactory with the overall seamless operation.
