

In 2014, 14 umbilical reels manufactured in UK were shipped down to Singapore. Winstar Group company via our Singapore partner undertook the delivery ex-Jurong Port onto 300ft ballastable barge and storage for 6 months. Reels ranging from 110ton – 230ton total volume 7250cbm. Deck strengthening with reinforced beams and ballasting calculation with MWS compliance to achieve even trim for facilitating turn-around receiving.
